

Buildings and Grounds
September 2021

Craig from Eclectic Communications has replaced the power supply in the large speaker bundle to the left side of the cancel choir. This speaker faces out into the sanctuary so that parishioners should now be able to hear and understand the lessons and sermon.

Brian Regan from Bornor Restorations, based in Lansing, has done an examination of the outside of the building per our request. He has promised he will have a quote to us the first week in October.

Rebecca Bennett
Junior Warden
